SLAY AMERICAN
WOMAN, IS WORDMrs. Thomas Cheney Killed
By Bandits Near Tampico June 30.

BLAME REBEL LEADER

Evidence of Further Activi-
ty On Part of Outlaws
is Seen.Washington July 3.—Further evi-
dence of the activity of Mexican
bandits in the vicinity of Tampico
reached the state department today
in dispatch from Consul Shaw an-
nouncing the killing of Mrs. Thomas
Cheney wife of an American citizen
at Chocoy 40 miles northwest of
Tampico on June 30. The bandit
gang which attacked Mrs. Cheney
was said to be under the command of
the rebel leader Manuel Larraga.Consul Shaw said the bandits de-
manded 2,000 pesos when they attacked
the American oil camp at Chocoy,
and shot and killed Mrs. Cheney when
she recognized the leader of the
raiders. Mrs. Cheney, according
to Consul Shaw was a Mexican by
birth, but was the legal wife of an
American citizen, which entitled her
to protection by the United States
government.Secretary of State Hughes wired
Shaw to immediately insist that the
Mexican authorities apprehend and
punish the murderers. The same in-
structions went to Charge d'Affaires
Summerlin at Mexico City.SHOP WORKERS GET
SYMPATHY OF MENCincinnati, O., July 3.—Though
members of the five transportation
brotherhoods comprising engineers,
conductors, brakemen and trainmen
are maintaining a hands off attitude
in the strike, extra firemen and
brakemen hired recently by the
Southern Railway officers at Ludlow
Ky., and working subject to call, are
sympathizing with the striking shop
men. This developed Sunday when a
general call was issued for these
men to act as crews of extra freight
trains and it was found that they had
all disappeared. What few could be
located refused to work. The extra
men live in the same neighborhood
as many of the strikers and it is
thought they would not work for
fear of jeopardizing the success of
the walkout.

for lieutenant governor announced to-
day. Hubbell's proposed ordinance
provides that large users may be

CUSTOM DISCONTINUED

Columbus, July 31.—No longer will
cell mates be allowed to give depart-
ing residents a hearty send off at the
expiration of their term, as has been
the custom at the Ohio penitentiary.

shooting has remained a
mystery.STRIKING RAIL WORKERS
OUTLAWED BY LABOR
BOARD RESOLUTIONEmployes Who Strike Against Decision of Board Hit by
Ruling On Monday--Break Between Body and
A. F. O. L. Near.Chicago, July 3.—Railway employes
who strike against decisions of the
U. S. Railway Labor Board were
formally outlawed by the board in a
resolution adopted today.The board recommended that new
unions or associations of employes re-
main at work or hereafter joining
the service of the roads be formed
to take the place of the striking
workers.Protection for all men remaining
in the service of the roads or joining
any new association that may be
formed was promised in so far as
is in the power of the labor board to
give it.Action taken by the labor board
means a definite break between the
board and the railway employes de-
partment of the American Federation
of Labor which is directing the pre-
sent strike of shopmen throughout
the country. Unions who call strikes
hereafter against the decisions of the
board are automatically outlawed under
the resolution and are not entitled
to any benefits of privileges
accruing under the labor board's de-
cisions.The text of the resolution follows
in part:"Whereas in the future submission
to disputes involving rules, wages
and grievances or employes or employes
of the carriers it will be desirable, if not
a practical necessity, for the employes
of each class on each carrier to
form some sort of an association
or organization to function in the
representation of said employes before
the railroad labor board, in order
that the effectiveness of the trans-
portation act may be maintained:"Now therefore be it resolved and
communicated to the carriers and the
employes remaining in the service and
the new employes succeeding
those who have left the service, to
take steps as soon as practicable to
perfec or reach carrier such organiza-
tion as may be deemed necessary
for the purposes above mentioned
and:"Be it further resolved that the
employes remaining in the service and
the new ones entering same be
accorded the application and benefit
of the outstanding wage and rules
decisions of the labor board until
they are amended or modified by
agreement with said employes, ar-
rived at in conformity with the trans-
portation act or by decision of this
board and;"Be it further resolved that if it
be assumed that the employes who
leave the service of the carriers be-
cause of their dissatisfaction with
any decision of the labor board are
within their rights in so doing, it
must likewise be conceded that the
men who remain in the service and
those who enter anew are within
their rights in accepting such em-
ployment—that they are not strike-
breakers seeking to impose the arbit-
rary will of any employer on employ-
ees, that they have the moral as wellas the legal right to engage in such
service of the American public to
avoid interruption of indispensable
railroad transportation, and that they
are entitled to the protection of
every department and branch of the
government, state or national."The order is to be posted in all
the railroad shops throughout the
country.Minority members of the board,
comprising the three known as the
labor group, refused assent to the
resolution. Adoption by the majority,
however, makes the resolution of-
ficial.Detroit, Mich., July 3.—If the rail-
way labor board will vote to hold its
wage cut order in abeyance until
there can be a rehearing of the case
of the strike order affecting 180,000 em-
ployees of the United Brotherhood of
Maintenance of Way and Railway
Shop Workers will not be issued to-
day, John Hall, secretary of the orga-
nization, declared.A strike is the last thing the exec-
utive committee will resort to it was
said.Several alternative plans were to
be discussed by the committee before
strike action was to be taken, mem-
bers of the board declared as that
body met today at 10:15 a. m.CENTENNIAL OPENS
IN MARION EARLY
MONDAY MORNINGPresident Harding Will Be
Welcomed On Arrival
Late in Day.Marion, O., July 3.—With the pre-
sentation this morning of the keys
of the city to Captain Charles Eber
Baker, of Chicago, a grandson of
Eber Baker, father of Marion, the
celebration of the centennial of the
city's founding was officially open-
ed.The exercise took place at the large
reviewing stand constructed at the
edge of the city's downtown business
section and the address of welcome
was spoken by Mayor George W.
Neely.Captain Baker, a veteran of the
Civil war, spoke briefly, telling
interesting reminiscences, and another
short address was delivered by
Judge William Z. Davis, of Columbus,
former member of the Ohio Supreme
court.Everything is in readiness for the
welcome home this evening of Presi-
dent and Mrs. Harding, who are en-
route for their first visit since the
inaugural ceremonies in March of
last year. Tomorrow afternoon there
will be a presidential salute of twenty-
one guns and the president will
deliver a friendly greeting to his
townspeople.Rainbow Division veterans this af-
ternoon are holding a reunion here
and this afternoon and evening the
principal musical events of the cen-
tennial will take place.ATTACK IS BEGUN
BY FORCES OF FREE
STATE ON MONDAYHeadquarters of Devalera
Under Fire—Rebellion
Near CollapseDublin, July 3.—A hot attack
was begun at 9:40 o'clock by Irish
Free State troops against a group
of hotels in Sackville street, head-
quarters of Eamonn DeValera, com-
mander in chief of the Republican
irregulars.The insurgents now hold only a
small group of buildings in Sack-
ville and Upper O'Connell streets
having been driven from the rest of
their positions.The Republican rebellion against
the free state appeared to be on the
point of collapse so far as Dublin is
concerned.The rebels held by the rebels in
both O'Connell and Sackville streets
were under heavy fire.Officers of the free state said they
believed that the rebel defenders
would be forced to surrender before
the day is over.Devalera and his chief of staff,
Cathal Brugha, were believed to be
in Hammond hotel, one of the build-
ings in Sackville street under shell
fire.JUDGE SILVER IN

BONUS PROPOSAL
MADE BY TRACYPlan Calls for Payment of
Claims From General
Revenue FundColumbus, July 3.—Prediction
was made this afternoon by legislative
leaders that the state legislature
in special session here, will pass a
bill, embodying the recommendation of
State Auditor Tracy, providing for
direct appropriation from the state's
general revenue fund of an amount
sufficient to pay all legitimate claims
by Ohio veterans of the recent world
war for adjusted compensation.Columbus, July 3.—The state leg-
islature convened here today in spe-
cial session in response to a call issued
by Governor Davis, for the pur-
pose of enacting legislation looking
toward providing additional soldiers
bonus funds. The senate also was
asked by the governor to confirm
his recess appointment of 38 state
officials. The appointments were made
since the close of the last regular
session.Following reading of Governor
Davis' message, State Rep. Henry
W. Frillman, Columbus, Republican,
introduced the resolution, prepared
by Attorney General Price, providing
for submission at the August primaries
of proposed amendment to the
state constitution authorizing the
additional issuance of not more
than \$10,000,000 in bonds, proceeds
from the sale of which are to be
used by the state in paying adjusted
compensation claims to Ohio veterans
of the recent World War.The resolution was referred to
the house military affairs committee.
The house then recessed until 2 p.
m. Columbus time. The committee it
was announced will hold a hearing on
the resolution prior to the after-
noon session.The senate, disregarding Governor
Davis' action dissolving the last
regular session, met shortly before
noon and proceeded in conformity
with the opinion of senate Repub-
lican leaders that the legislature had
been on a recess and that the gov-
ernor had acted illegally in declar-
ing the legislators adjourned sine die
months ago because of differences
between the house and senate as to
time of adjournment.Columbus, July 3.—In advance of
the convening of the special session
of the state legislature here this
morning to enact additional soldiers'
bonus legislation, Gov. Davis was giv-
ing consideration to the proposal
made by State Auditor Tracy, that
the money needed for paying ad-
justed compensation to Ohio veterans
of the recent world war be appro-
priated by the legislature general
revenue fund instead of adopting a
resolution providing for submission at
the August primaries of a proposed
amendment to the state constitution
providing for the additional issuance
of not to exceed \$10,000,000 in bonds,
proceeds from the sale of which will
be used in making soldier bonus pay-
ments.Washington, July 3.—President
Harding's national coal conference
held another protracted session be-
hind closed doors today, finally ad-
journing until Monday, July 10 with-
out breaking the deadlock which de-
veloped on Sunday or without pro-
gressing toward a settlement of the
nation wide strike.Washington, July 3.—The plan of
the United States government for
ending the nation wide mine strike
has been formally presented to the
conference of coal operators and
miners, it was announced today by
Secretary of Labor Davis just be-
fore the two groups again went into
secret session in an attempt to break
the deadlock over settling their dif-
ferences.Davis declined to make public the
details of the government's peace
plan, but it was understood to provide
for immediate arbitration.He said he would again present
the plan to the operators and miners
today, urging that it be adopted forth-
with, so that the miners could return
to work within a few days.Davis is understood to have pre-
sented the government's plan of set-
tlement as soon as the conference re-
convened. After a few minutes gen-
eral discussion, the mine chiefs, head-
ed by John L. Lewis, president of
the United Mine Workers of America,
withdrew and went into secret caucus
to consider the Davis proposals.The miners also considered a plan
brought forward by the coal opera-
tors for ending the strike. This plan
was submitted by Alfred M. Ogle,
of the National Coal Association, Sec-
retary Davis declined to make pub-
lic the government's peace plan, but
said Secretary of Commerce Hoover
and himself wanted the miners and
operators to consider it separately for
a week before announcing their de-
cision. Davis was of the opinion that
the plan would be acceptable to both

the miners and the operators.

FAST TRAIN WRECKED
EARLY MONDAY MORNINGMore Than 70 Injured When Train Bound for Atlantic
City Plunges Through Open Switch Into Ditch 30
Feet Below---Wrong Signals.Winslow Junction, N. J., July 3.—A revised casualty list this
afternoon put the number of dead in the wreck of the Philadelphia and
Reading railroad's "midnight flyer" at nine. Some of the 72 injured are so badly hurt it is feared they will die. Six of the dead have been identified. The identification of another man was believed possible from cards in his pockets. The body of the engineer was still pinned in the wreckage of the locomotive. One injured man died while being taken to Atlantic City for treatment.

It had been announced by the state police before noon that 11 were known to be dead, but these figures were subsequently reduced.

The aged signalman in charge of the tower at Winslow Junction who is alleged to have been responsible for the wreck, by throwing the train into an open switch on the Cape May branch, plunging down a 30-foot embankment, had been arrested, charged with manslaughter and taken to Camden. He is 68 years old. Following the wreck he fled to his home in Hammonton, frantic with terror and remorse. He talked ceaselessly of the disaster, saying over and over again that the cries of the injured were ringing in his ears. His family fear his mind will be upset.

Railroad officials said there were really seven cars in the train instead of six as originally reported, but that one car at the head of the train was a "deadhead" carrying no passengers. It was believed that the death list would have been heavier but for the fact that the cars were steel. Nearly all the intact windows of one car were coated with human blood.

Nine persons are known to have been killed, several others may be dead and seventy-two were injured in a wreck of the "Midnight Flyer" of the Philadelphia and Reading Railroad here at 12:20 a. m., according to a report made by Sergeant Campbell of the state police, one of

ON WRONG TRACK
Atlantic City, July 3.—"My God, I have sent 33 on the wrong track!"
This tragic dispatch is said to have been sent by John D. Walt, signalman at Winslow Junction after the wrecked "Midnight Flyer" had been switched from the main line to its doom, according to reports reaching the Reading railroad offices here today.

The leaders of the relief work. Thirty-seven of the injured are in a serious condition, according to Sergeant Campbell. Ten are children and sixteen are women. More than 40 were taken to Atlantic City. Others were removed to Cooper Hos-

pital in Camden.

The accident was caused by im-
proper setting of a switch. It threw the
flyer on to a curve leading into a
branch line to Wildwood and Cape May.At the time the engineer was driving his train at terrific speed, ex-
pecting to continue along a straight line of track.The train left the rails and plow-
ed along sixty feet of ground to the
thirty-foot cut of the Pennsylvania railroad's Cape May branch.The "Midnight Flyer" was com-
posed of two pullmans and four day
coaches. Then engine, the two pull-
mans and three day coaches went into
the cut which is fifty feet wide.

train the men; other officers have been imported from Germany and the arms and supplies have been assembled from all over the world.

The classes of 1899, 1900 and 1901 now serving under the colors, number 1,370,000 to which must be added a militia of 500,000. At the end of April the Red Army possessed a million and a half rifles, more than 2000 pieces of light artillery, 500 to 600 pieces of heavy artillery, about 10,000 machine guns and from 500 to 600 cartridges per gun. A supply of airplanes is being furnished by Berlin.

A feature of the new army is the elegance of the officers' uniforms, according to M. Erio. Instead of gold braid, red braid is worn and this assumes curious designs according to the taste of the individual officer. Privates wear a uniform similar to that worn by the Czarist soldiers but with a queer khaki cap, pointed and adorned by an enormous red star.

HAVE MIRACULOUS ESCAPE FROM DEATH BY ELECTROCUTION

Little Evelyn and Mildred Ary, children of Mr. and Mrs. Roy Ary of Bellbrook Avenue, may be said to have an appetite for electricity.

Monday they were recovering from slight burns, shock and nervousness from their contact with a "live" service wire of the Dayton Power and Light Co., which fell from its poles in front of their home Sunday night.

The children returned home with their parents at 9:30 o'clock, and before they noticed the broken wire lying on the sidewalk, they had stepped on it. The force of the electricity knocked both of the little girls down, and spun them around like human tops. Little Evelyn, who is aged nine, was burned about the arm and shoulder, while little Mildred, who is seven years of age, suffered principally from shock.

Physicians called said that neither was injured seriously. The police were notified and informed officials of the Dayton Power and Light Company, who had the broken wire repaired within a short time. Electric company officials said Monday that the escape of the children was miraculous considering the electricity that must have passed through them. The fact that the street was wet increased the hazard, it is said.

The broken wire was a service wire, carrying light current for residents on the street, and said to carry several hundred volts. Officials of the power company said the wire had rubbed against a tree until the insulation was broken and then had burned itself in two, the broken end falling on the sidewalk. No report of it had been received by the company until after the accident.

That will become a practical possibility within a few months, according to Edouard Belin, inventor of facsimile transmission by radio, in an interview with International News Service.

M. Belin already has sent photographed manuscripts and signatures from France to America by wireless. This summer he is working in his laboratories at Malmison on the transmission of portraits. In the fall he will tour the United States to demonstrate to the Department of Justice and to the police of large cities the importance of his invention to the detection of crime.

"The present method of telegraphing pictures, used by some news services, is only a makeshift," said M. Belin. "It consists of sending, on the wire or through the air, code words or numbers which indicate to the receiver points on a chart. By connecting these points with a pencil line a diagram of the image is concocted. An artist with imagination decorates the diagram until it resembles somewhat what the original must have looked like."

"The discoveries I am perfecting involve the actual transmission of an image through the air. Without going into technical details—although I am quite willing to do so—this image reproduces itself at destination upon positive film or printing out paper."

"As yet best results have been obtained with the sending of handwriting. This alone is of tremendous importance to the business world. A man in Paris could indorse a note in Cleveland, Ohio, or Rio Janeiro, or Liverpool simply by going to the telegraph office in Paris and writing his signature. I believe this facility will soon be added to the public telegraph service."

"But a much clearer image is necessary to send a portrait. We are working on that now. By fall, I can promise you, the process will be perfected—and I shall take it at once to the United States."

Mr. and Mrs. W. B. Chew and Fenton Chew went to Lebanon Sunday and will visit over the Fourth, with relatives and friends there.

William J. Smith, traveling agent for the Proctor and Gamble Co., through the northern part of the state, is spending a few days with his parents, Mr. and Mrs. G. J. Smith, of Dayton avenue. AUTO HITS TREE EARLY ON MONDAY INJURING PARTY

A party of Dayton men, received severe cuts and bruises, one sustaining a concussion of the brain, when the machine in which they were riding skidded and crashed into a tree, at the sharp turn on Main street off Dayton Avenue Monday morning at one o'clock.

The members of the party, whose names were not learned, were coming to this city from Dayton, and were unfamiliar with the sharp curve, at the foot of Main Street, and due to the wet pavement the machine skidded and crashed into the tree.

The injured men were taken to the office of Dr. W. A. Galloway where their injuries were dressed and they returned to their homes in Dayton. The machine, a touring car was badly damaged and was hauled to a local garage for repairs.

TWO FIREMEN INJURED IN BLAZE

Dayton, July 3—Fire Chief Ramby estimates the damage to the Old Beaver Power building, which was gutted by fire at 9:15 o'clock Monday morning, to be in the neighborhood of \$25,000, after making a complete tour of the damaged portion of the building.

Two firemen were injured.

That Curious Device for Making Fire

IT was only seventy five years ago that a woman of the Middle West wrote to her cousin in New York:

"Last winter I was told of a curious new device for making fire. It consisted of small splinters of wood with tips of some substance that bursts into flame when rubbed on a rough surface. If you can procure some of them for me I shall be grateful."

Matches were in general use in Europe for years before they were seen in this country. There was no means for spreading such news rapidly.

Today, the new invention that contributes to comfort or convenience is quickly known the country over. Advertising conveys the information. The farmer's wife in Texas or Idaho is as well posted on these things as the city woman of the East.

Don't overlook the advertisements in these columns. They are heralds of progress, with real news for you and your family. They save your time, lighten your work and enable you to obtain the utmost in value for the money you spend.

Prince Louis Honore Rules Monaco

Prince Louis Honore

Following the death of his father Prince Albert Honore Charles, Prince Louis Honore, has become the ruler of Monaco, in which Monte Carlo, the gambling resort is the chief city. Prince Louis is fifty-one, and served in the French army in the World War. He is the son of his father's first marriage to Lady Mary Douglas Hamilton, who had her marriage annulled by the Vatican on the ground that she had been forced into it by her mother and Napoleon III. The civil decree held that the marriage should be regarded as never having taken place but Prince Louis was declared legitimate. Lady Mary carried her son to Italy, and his father made an attempt to kidnap him, which embittered the son against the father, and a reconciliation was not effected for many years.

POOR CHANCE FOR CRIMINAL TO MAKE ESCAPE THIS WAY

Paris—What chance would a fleeing criminal have to escape if every town and village in the country could have his photograph the very day of the crime?

That will become a practical possibility within a few months, according to Edouard Belin, inventor of facsimile transmission by radio, in an interview with International News Service.

M. Belin already has sent photographed manuscripts and signatures from France to America by wireless. This summer he is working in his laboratories at Malmaison on the transmission of portraits. In the fall he will tour the United States to demonstrate to the Department of Justice and to the police of large cities the importance of his invention to the detection of crime.

"The present method of telegraphing pictures, used by some news services, is only a makeshift," said M. Belin. "It consists of sending, on the wire or through the air, code words or numbers which indicate to the receiver points on a chart. By connecting these points with a pencil line a diagram of the image is concocted. An artist with imagination decorates the diagram until it resembles, somewhat, what the original must have looked like.

"The discoveries I am perfecting involve the actual transmission of an image through the air. Without going into technical details—although I am quite willing to do so—this image reproduces itself at destination upon positive film or printing out paper.

"As yet best results have been obtained with the sending of handwriting. This alone is of tremendous importance to the business world. A man in Paris could indorse a note in Cleveland, Ohio, or Rio Janeiro, or Liverpool simply by going to the telegraph office in Paris and writing his signature. I believe this facility will soon be added to the public telephone service.

"But a much clearer image is necessary to send a portrait. We are working on that now. By fall, I can promise you, the process will be perfected—and I shall take it at once to the United States."

William J. Smith, traveling agent for the Proctor and Gamble Co., through the northern part of the state, is spending a few days with his parents, Mr. and Mrs. G. J. Smith, of Dayton avenue. Mrs. Smith, who resides with her mother at Washington C. H., during Mr. Smith's absence, is visiting with friends in New York.

Mrs. J. M. Laing, and son, J. M. Laing, Junior, and Mrs. L. N. Tallichet, and son, Frederick, motored through from Charleston, West Virginia, to spend the Fourth, with Mr. and Mrs. J. J. Stout, of Hill street.

Emma and Maynard LaMar, daughter and son of Mr. and Mrs. Rolla LaMar, of Hill street, are ill, and are thought to be threatened with typhoid fever.

Ernest McDonald, of Fort Wayne, Indiana, is visiting his grandparents, Mr. and Mrs. T. E. Craig, of North King Street.

John Prugh and son Lawrence came to this city Saturday from Columbus, and will remain over the Fourth.

Little Miss Viola Anson, of Bowersville, is spending the week with her uncle and aunt, Mr. and Mrs. Harper C. Pendry. Mr. and Mrs. Forest Beal, of Bowersville, were Mr. and Mrs. Pendry's guests for the week end.

Miss Hazel Saulsbury, of Cleveland, is the guest of her cousin, Miss Helen Evans, of West Market street. Miss Mabel Saulsbury, who is now visiting in Waynesville, is expected to arrive here Thursday for a visit.

Mr. and Mrs. J. D. Steele and daughters, the Misses Margaret and Florence, left Sunday for New York and will sail July 5 for Europe where they will spend the summer. They will visit France, Italy, and Switzerland.

train the men; other officers have been imported from Germany and the arms and supplies have been assembled from all over the world.

The classes of 1899, 1900 and 1901 now serving under the colors, number 1,370,000 to which must be added a militia of 500,000. At the end of April the Red Army possessed a million and a half rifles, more than 2000 pieces of light artillery, 500 to 600 pieces of heavy artillery, about 10,000 machine guns and from 500 to 600 cartridges per gun. A supply of airplanes is being furnished by Berlin.

A feature of the new army is the elegance of the officers' uniforms, according to M. Elio. Instead of gold braid, red braid is worn and this assumes curious designs according to the taste of the individual officer. Privates wear a uniform similar to that worn by the Czarist soldiers but with a queer khaki cap, pointed and adorned by an enormous red star.

HAVE MIRACULOUS ESCAPE FROM DEATH BY ELECTROCUTION

Little Evelyn and Mildred Ary, children of Mr. and Mrs. Roy Ary of Bellbrook Avenue, may be said to have an appetite for electricity.

Monday they were recovering from slight burns, shock and nervousness from their contact with a "live" service wire of the Dayton Power and Light Co., which fell from its poles in front of their home Sunday night.

The children returned home with their parents at 9:30 o'clock, and before they noticed the broken wire lying on the sidewalk, they had stepped on it. The force of the electricity knocked both of the little girls down, and spun them around like human tops. Little Evelyn, who is aged nine, was burned about the arm and shoulder, while little Mildred, who is seven years of age, suffered principally from shock.

Physicians called said that neither was injured seriously. The police were notified and informed officials of the Dayton Power and Light Company, who had the broken wire repaired within a short time. Electric company officials said Monday that the escape of the children was miraculous considering the electricity that must have passed through them. The fact that the street was wet increased the hazard, it is said.

The broken wire was a service wire, carrying light current for residents on the street, and said to carry several hundred volts. Officials of the power company said the wire had rubbed against a tree until the insulation was broken and then had burned itself in two, the broken end falling on the sidewalk. No report of it had been received by the company until after the accident.

Funeral services will be held at the Coates home Wednesday but the hour has not yet been decided. The body will be taken to Peebles for burial. Friends may call at the Coates home Tuesday evening.

MRS. EFFIE KENNEDY WAS IN TOUCH CALLED BY DEATH WITH THE LEADERS

Mrs. Effie Kennedy, aged 56 years, died Monday morning at 11:45 o'clock at the home of her son-in-law and daughter, Mr. and Mrs. John Coates, on Branch Street, after an illness of about six weeks from a complication of diseases. She was removed about three weeks ago from her home on the Upper Bellbrook pike to the home of Mr. and Mrs. Coates.

Mrs. Kennedy was born and reared in the vicinity of Peebles, Ohio, but had made her home in this city for a number of years.

She is survived by three children, Mrs. Ina Coates, Mr. Fred Kennedy, and Mr. Harry Kennedy, both at home. She also leaves one sister, Mrs. Mary Stafford and one half brother, Mr. John Rolton, of Peebles, Ohio.

Funeral services will be held at the Coates home Wednesday but the hour has not yet been decided. The body will be taken to Peebles for burial. Friends may call at the Coates home Tuesday evening.

"This flag waved over heroes, German youth should become such."

It is understood that Von Jagow, who is serving a prison term in a Pomeranian fortress for treason in connection with the Kapp uprising, frequently invited Guenther to see him.

RACE TROUBLES AT ANNAPOLIS.

The report of race discrimination at Annapolis is disgusting to the sense of justice of the American people. If it is true that a Jewish student has been subjected to indignities at the naval academy on account of his race, the students responsible ought to be severely punished and it should be made plain at once that the nation which pays for their education will not stand for any such conduct.

Somewhat or other a good many people seem to be getting into their heads that they can safely make trouble in this country for people of other religions than their own. The sooner this false idea is dissipated by drastic action the better. America wants no "100 per cent Americanism" of this kind.

America was founded on principles of religious and political liberty. It has always been regarded as a refuge for the oppressed. No change has taken place either in the constitution of the United States or in the minds of the American people on these points in the last few years. It is time the trouble-makers were made to see some of these facts.

And the very last place where unjust discriminations can be tolerated are the educational institutions belonging to the United States.

HUMANE VIVISECTION.

The anti-vivisectionists are to be deprived of most of their ammunition. The leading medical institutions of the country that practice vivisection are throwing open their laboratories for anyone to see exactly how the guinea pigs, rabbits, dogs and other animals used are treated. The institutions declare that they have nothing whatever to conceal—that if there were inhuman methods used on dumb brutes in the past. Those methods have been changed until there is now nothing which any rational critic could object to.

The publicity proposed is intended mainly for the officers of humane societies, but the heads of several laboratories have announced that they admit any interested person, on proper application, to see how they handle the animals used in experimentation.

Some people, no doubt, will still remain unconvinced. But perhaps there is no use arguing with anyone who insists that it is wrong even to destroy the life of a guinea pig under an anesthetic, for the discovery of information that will save human lives. One wonders how such critics justify the use of meat, when they consider the killing of the pigs, sheep and cattle in slaughter houses. All that can be asked, in either case, is that no needless cruelty be practiced.

INDEPENDENT CITIZENSHIP.

A bill has been introduced in Congress to give independent citizenship to married women.

Up to the present time, an alien woman coming to this country would receive American citizenship automatically if she married a man who was naturalized. She need not be able to speak English, to know even those few and simple little facts required to be learned by applicants for naturalization papers.

On the other hand, any American woman who married a foreigner automatically lost her citizenship and assumed that of her husband.

There is no question as to the desirability of passing the bill.

DEFEAT IS NOT DISASTROUS.

Occasional defeat makes for the health of both of our great parties. The growth of public opinion has been away from selfish devotion to parties as such. Millions of citizens, even while adhering nominally to one party or the other, are patriotic enough to treat both parties as servants of the public good, rather than as masters. In some countries, which have not yet fully learned the art of popular government, partisanship comes little short of civil warfare. Except for the immoderate utterances of certain candidates, and the exaggerations of a diminishing number of party journalists, our election rivalries are not intense enough to disturb the general equanimity. The points of agreement are so much more extensive than the points of difference that it is not easy to explain to the intelligent stranger from a foreign land why two intimate friends or business partners should be members of opposing parties, while they are obviously in the most sympathetic accord upon almost every matter, public and private. It is never good for a free country like ours, which is fully responsive to the public will and quite radical enough to make changes as fast as conditions justify, to be confronted on election day with discord due to the menace of excessive change. We are, therefore, fortunate in being able to restrain party antagonisms. With Americans in normal times, political contests are like games.

DETECTIVE ARRESTS MAN SECOND TIME EIGHT ACCUSED OF MANSLAUGHTER

Cleveland, July 3.—That house and "fly cop" are both jinxes." Thus mused Charles Anderson, of Jamestown, New York, today as he sat in Lakewood city prison following his arrest at the home of George D. Rowland, on Clifton boulevard yesterday.

It was Anderson's second arrest on a charge of house breaking and larceny at the Rowland home and in both cases the arresting officer was Detective Fred Kintzler.

Two years ago, Anderson was given an indeterminate sentence in Mansfield reformatory upon this charge, from which institution he was recently released. Yesterday Rowland returned from an auto trip, saw that some one was at work in his home. The police were called. Detective Kintzler responded and when he entered found that his prisoner was the same man he had taken in the same room two years ago.

"It's my old friend Anderson," he said as he told him to hold his hands high.

Anderson did not respond.

AND WE HAD BEEN SO IN HOPES THAT WE HAD REACHED A SAFE
AND SANE PERIOD

1902--Twenty Years Ago--1922

Our "electric light" man is getting heavy. He has contracted with the council for another lease of ten years and has ordered a 200-horse power engine to take the place of the 90-horse power. He is preparing to give us "day service" and if such is so we will be metropolitan.—Jamestown Notes.

Paul Maxey, of the Union neighborhood has gone to Dayton, where he will enjoy the Fourth with relatives.

A base ball game was played at the O. S. and S. O. Home this afternoon by the ex-pupils and a team of Elks which was organized by Mr. Clarence Galigher.

The Dayton and Xenia Y. M. Associations have decided to go together this year and hold a union camp on the Bryan farm near Yellow Springs which affords one of the best sites in the country for a camp. They will go into camp July 14 and remain ten days.

I have in mind a young man who seems to have plenty of sand in his make-up—but he doesn't know how to mix it with his cement qualities. And so, as the years run along, I note that he drifts much, and some day he will find himself a long way from substantial success.

Stick to sand, my friend, but make that stand stick!

WAR ON SPEEDERS
Pomeroy, July 3.—To nab the speeders, special officers have been working here with stopwatches. Zones have been marked out in the streets. The first evening's work is said to have resulted in the arrest of eight persons. Others are to follow.

Rippling Rhymes

By WALT MASON

MORE TROUBLE.

I asked my friends, in ringing terms, to drink from brimming rivers; the streams, alas, were full of germs, and now they've ailing livers. They come to me in ire and say, "You are a blamed deceiver; you made us throw our jugs away, and now we're typhoid fever. To help you boost the Volstead act we cut out all our bitters, and went and sipped a cataract, and now we're weakly critters. The rivers are not fit to drink, for microbes there are swarming; you've put us all upon the blink, and ought to quit reforming." Some good I struggle to achieve, though frost meets each endeavor, though knockers stand around and grieve, and gnash their teeth forever. I say to all these janes and jakes, these mourning sons and daughters, "You ought to boil your streams and lakes before you drink their waters. The wild Missouri's full of mud, all kinds of germs enmeshing, but if you cook its turbid flood, it's wholesome and refreshing. You'll have good health and sweetly dream, upon your divers pillows, if you will take the babbling stream and fry its sparkling billows."

BAYLIFFS DEFEAT DAYTON TEAM BY BIG SCORE SUNDAY

Fans who like to see a hit and run ball game, held their sides in glee at the Washington Street Park Sunday afternoon, while the Bayliff Electrics defeated the South Side Merchants of Dayton, 22 to 4.

While Cooper held the visitors in the hollow of his hand permitting but five hits during the pastime, the locals fastened their batting averages with 17 safeties and took advantage of ten contributory errors, that kept the paths crowded in every inning but one, with baserunners.

The locals scored in every inning but the sixth, but made up for that digression by batting around in the seventh and then repeating in the eighth. The slaughter instead of abating as the game progressed, grew more violent in every inning, "our boys" being untamable having once tasted.

With all the scoring, it is a matter of note that the visitors held the lead briefly at one time during the game. That was between the first and second halves of the initial stanza, before the locals had had a chance to bat. The visitors opened the pot on three of a kind, a walk, an error and a "hit by pitcher," but the kitty was light, only netting one run. Magee walked, stole second, took third on Pope's fly and scored when Bath fumbled Wernicke's roller. Deimer was hit by a pitched ball, but Kaiser and Stork fanned.

To open in their half, Bath got his first of four walks, stole second, took third on Leahy's single to left and scored when Deimer dropped Yous' assist to get him at the plate. Leahy advanced on the play, while Owens fled out and served on Ritter's single to right. In the local second Fuller singled, Derrick fled for the second out, but Cooper also singled. Bath's single scored Fuller, and Cooper counted when the catcher dropped the assist. The locals added three in the third. McConnell dropped Owens' fly. Ritter and Bocklet both popped out to Barth but Drake singled scoring Owens, who had stolen second. Drake scored when Stork muffed the assist on Fuller's roller, the after double-timing in on the error and a passed ball. In the fourth, Cooper got his second hit took second on Bath's sacrifice, and scored when Stork's assist to get him at third went wild. In the fifth, the visitors got their three last runs. Magee opened with an infield single, took second on Pope's out and scored on Wernicke's single. Wernicke's advanced on Deimer's out and scored on Kaiser's double which he stretched into a run. The locals got four in the fifth on Bocklet's single, Drake being hit by a pitched ball, Derrick's single, Cooper's double, Bath's walk and Leahy's sacrifice fly. The locals did not score in the sixth, but in the seventh batted around, scoring four runs, on Fuller's double, the only hit of the inning, Derrick being hit by a pitched ball. Wernicke's error, three walks donated to Bath, Owens and Ritter and Kaiser's miff of Bocklet's fly. The end of the scoring came in the eighth. Derrick was safe on Wernicke's error and stole second. Cooper singled and Bath walked. Leahy fanned but Owens singled and Kaiser dropped Ritter's long fly. Bocklet cleaned the sacks with a triple and Drake singled but was caught off third for the third out, after Fuller was out at first unassisted.

The game was featured by the performance of Cooper, both in the box and at bat. While permitting the visitors but five hits, he obtained four himself in five trips. Bath who walked to the plate six times sacrificed once and was walked four times, which credits him with but one time at bat, one hit a sacrifice and three runs. The lineup: Bayliffs—Bath 3b, Leahy c, Owens lf, Ritter ss, Bocklet 1b, Drake rf, Fuller cf, Derrick 2b, Cooper p. South Side Merchants—Magee lf, Pope 3b, Wernicke ss, Deimer c, Kaiser cf, Stork 1b, McConnell rf, Barth 2b, Yous p; Wernicke, p. The score:

Merchants 1 0 0 0 3 0 0 0— 4 5 10
Bayliffs 2 2 3 1 4 0 4 6 x—22 17 6

NEW PUBLIC HEALTH NURSE BEGINS HER DUTIES AT LEAGUE

Mrs. O. S. Kelly, who has taken the position vacated by Mrs. H. H. Whitington, as Public Health Nurse, for the Social Service League, began her work with that organization Monday.

Mrs. Kelly graduated in 1909, from South Side Hospital at Pittsburgh, Pa., and upon leaving the nurses' training school, gained experience in floor work in the Presbyterian Hospital, at Pittsburgh. She then left for Denver, where she entered the Mercy Hospital, for six months. Upon returned to Pittsburgh, Mrs. Kelly was engaged in private work. In Chicago, she was for some time at the Carson Perry Scott Emergency Hospital and at the County Cook Hospital, where she gained a large amount of valuable training.

Mrs. Kelly was for seven years at the Dr. Warren Coleman hospital in Troy, Ohio, where she was in charge of the hospital and the surgical work. She has been connected with the St. Elizabeth's Hospital, at Dayton, and since residing in this city, for the past two years, has been under the supervision of Dr. B. R. McClellan, at the McClellan Hospital.

Her experience also includes a great deal of time devoted to relief work, in Pittsburgh, and in the medical and surgery branch of the work. Her work in the different lines of the medical profession has enabled her to fill her new position quite capably.

OBSERVE THESE FOURTH OF JULY "DON'TS."

Some 4th July DON'TS

Here, kiddies, are some 4th of July "DON'TS" that you must be sure to observe: DON'T throw fireworks at playmates. Some terrible accidents have resulted from this thoughtless trick. DON'T hold your face over fireworks in which

you think the fuse has gone out after being lighted. Many have been blinded that way. DON'T get down close to fireworks when lighting them. A sudden explosion may maim you. DON'T try to scare people by lighting fireworks near them.

Deaths have been caused that way. DON'T hold fireworks in your hand after lighting them. The danger is great. DON'T get under skyrackets when touching them off. The sparks may set your clothing afire. And, above all DON'T BE CARELESS!

I am now in the best of health—thanks to Mayr's Wonderful Remedy." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. NEW PUBLIC HEALTH NURSE BEGINS HER DUTIES AT LEAGUE

Mrs. O. S. Kelly, who has taken the position vacated by Mrs. H. H. Whitington, as Public Health Nurse, for the Social Service League, began her work with that organization Monday.

Mrs. Kelly graduated in 1909, from South Side Hospital at Pittsburgh, Pa., and upon leaving the nurses' training school, gained experience in floor work in the Presbyterian Hospital, at Pittsburgh. She then left for Denver, where she entered the Mercy Hospital, for six months. Upon returned to Pittsburgh, Mrs. Kelly was engaged in private work. In Chicago, she was for some time at the Carson, Perry Scott Emergency Hospital and at the County Cook Hospital, where she gained a large amount of valuable training.

Mrs. Kelly was for seven years at the Dr. Warren Coleman hospital in Troy, Ohio, where she was in charge of the hospital and the surgical work. She has been connected with the St. Elizabeth's Hospital, at Dayton, and since residing in this city, for the past two years, has been under the supervision of Dr. B. R. McClellan, at the McClellan Hospital.

Her experience also includes a great deal of time devoted to relief work, in Pittsburgh, and in the medical and surgery branch of the work. Her work in the different lines of the medical profession has enabled her to fill her new position quite capably.

"We have checked approximately seventy per cent of the ballot," said Mr. Grable. "We find that all but a few are in favor of making the issue real by going out on strike. There seems to be no other course for me to follow than to do what the members of our union have ordered by their votes."

Cincinnati, July 3.—As a result of a three-story tenement fire caused by a gas explosion here early Sunday morning, Mrs. Rose Ripley, 34, is dead and her husband John Ripley, 36, is in a critical condition at the city hospital. The fire was started when Mr. and Mrs. Ripley returned home late and struck a match in the hall igniting a gas pocket formed by a leaking pipe in the cellar.

One of the notable features of the summer mode is the popularity of the separate sport coat. And that there is a distinct preference for vivid colors, especially among the younger women, is clearly to be seen in the gay crowds on the summer boardwalks and promenades at the various resorts. Red and green are not un-

FINE ON CHARGE OF MANUFACTURING LIQUOR ON MONDAY

Isaac Walker, 60, colored, was fined \$500 and costs by Judge E. D. Smith in Police Court Monday morning, on a charge of manufacturing liquor.

The charge followed his arrest by a police raiding party Saturday afternoon, at his home, the last house on the eastern end of Second street, after he had made an unsuccessful attempt to elude the officers and make his get-away, according to the police.

The raiding party was conducted by Lieutenant of Police Dave Mangan, including Patrolman Simms, Jones and Spencer. Police say Walker was sitting in the yard of his home and the house was locked up with padlocks when they arrived. The police showed their warrant and then Walker led Patrolmen Jones and Spencer to the barn on the rear of his property under the pretext that the liquor was hidden there.

As the officers entered the barn, Walker started to running across fields toward a freight train on the railroad nearby, according to police. When Walker failed to stop after Patrolman Spencer had fired several shots to frighten him, Jones sprinted across the fields and caught Walker as he was about to board the freight. In the meantime Lieutenant Mangan and Patrolman Simms broke into the house and confiscated a small still, three barrels containing 45 gallons of corn mash, and four gallons and quarter of corn whiskey.

HELD INTO COURT

Wilber Bogan, 19, was fined \$5 and costs in Police Court Monday morning, on a charge of plain drunk following his arrest by Lieutenant of Police Mangan Sunday.

CHARGE IS DISMISSED

A case of disorderly filed against W. E. Miachels, 27, Sunday, following his arrest on Washington St., by Police Sergeant Sowards and Patrolman Fred Jones, was dismissed by Judge Smith in Police Court Monday morning.

DAYTON TEAM WILL PLAY HERE TUESDAY

The Belmont Merchants of Dayton, will furnish the Independence Day baseball attraction here Tuesday, meeting the Bayliff Electrics at the Washington Street Park.

Because Cooper, regular Bayliff hurler, pitched Sunday, the management of the electricians has obtained the services of Bill Koontz, well-known Springfield semi-pro pitcher, who served them over the plate Tuesday afternoon.

Koontz is well known here, as he pitched the majority of the games for the old Xenia Reserves during the season that club was owned by the Moose Lodge, and Bill Foley was manager of the club. The Springfield hurler, is also well liked here, and he has been pitching good ball around Springfield this summer. Cooper will be relieved from duty on the holiday under the belief that one day's rest for him is not sufficient.

In bringing the Belmont outfit here, the local management feels that it has booked an Independence Day attraction that will insure an interesting diamond performance for the holiday crowd.

REVIVAL SERVICES AT NAZARINE CHURCH STARTS

Efficient Housekeeping

BY Laura A. Kirkman

KEEPING CHEERFUL IS THE HOUSEKEEPER'S FIRST DUTY

The other day a reader of this column wrote to ask me if I thought she was justified in neglecting her dusting, now and then, in order to snatch a few minutes, between taking care of her baby and doing the cooking, for knitting and crocheting.

Of course it should be every housekeeper's earnest aim to keep her house dusted and clean. But there is a bigger aim still, to be considered, and that is the aim to keep well.

Without health, we cannot be housekeepers at all.

Let us not be ashamed of having a normal interest in something outside of our housekeeping. Let us, instead, be thankful that we have that interest to keep us happy and cheerful and, thereby, healthy.

To be sure, there will always be plenty of folk who have inherited their ancestors' sternness and who will not mind informing us that they think our favorite pastime frivolous.

But, then, with such critics, criticism has become a habit—and they would still disapprove of us if we became perfect, wouldn't they?

So let us cling to our harmless little joys, Reader Friends, and be just happy, human folk, who can combine smiles with our housekeeping.

TO BE HELD JULY 28-AUG 13

Indications are that all attendance records will be broken at the Miami Valley Chautauqua to be held July 28 to August 13 at the grounds near Franklin.

Twenty-five additional cottages have been erected on the grounds to care for the large crowds expected, making a total of 102 cottages owned by individuals. Tents with wood floors are also rented to guests by the week, and hotel rooms can be obtained for those not cared for in other ways.

A regular post office will be established on the Chautauqua grounds this year, eliminating the necessity of guests having their mail sent to Franklin.

STUDY AND HARD WORK CHAPTER 8

Both Cora and Gladys were capable and efficient girls, earning a fair salary. But like many, perhaps most, working girls they helped at home—Cora her widowed mother, Gladys her younger brothers and sisters. They could spare little for Nellie, yet she must be better dressed before she looked for work.

Nellie was progressing rapidly. Cora found it a real pleasure to teach her, she was grateful, tried so hard to learn. She insisted upon keeping their room in order, and doing little things for Cora as well. She washed her waists, handkerchiefs, collar and cuffs, other bits of lingerie, and ironed them far better than the laundress Cora had been able to afford.

She also did all the errands, buying what few provisions they dared cook or eat in their room.

When Cora begged her not to do so much she replied:

"A nice sort I'd be if I didn't. Sometimes it makes me most sick I can't do more for you after all you've done for me, picking me up out of the street and making a man of me."

"Making a what?"

"A man of me! That's what I said. I wasn't anything but a poor slip of a girl that nobody wanted—and look at me now!" She flung out her chest, hands on hips, so comical that Cora shrieked with laughter.

"I don't see how I ever lived with you, you, Nellie."

"You lived all right, but I guess you didn't laugh much here all alone, and one of Miss Carter's boarders said: 'Laughing was good for folks.'"

"Why don't you try something else, Gladys, who was with them, asked.

"No Sirree! I set out to be a stenog."

"Not a very business-like reason, Nellie."

TIMOTHY W. PRICE CALLED BY DEATH

Timothy Wilson Price, 63, of South Galloway Street died Sunday afternoon at one o'clock, at the Espey Hospital, after an illness of several months, caused by a dropsical condition and Bright's disease. Mr. Price had been ill all winter, his condition gradually growing more serious.

Mr. Price was born near Wilmington, in Clinton County, in 1859. His first marriage was to Miss Anna E. Collins. To them were born two children, Lola, who preceded her father in death, and Stanley of Wilmington. Mr. Price later married again, his wife, surviving with one sister, Mrs. Mary Compson, of Wilmington, and two brothers, Lewis and Joseph Price, of near Wilmington. Four grandchildren also survive.

Mr. Price was engaged until the past few years as a farmer near Wilmington, but since moving to this city was employed at the Hooven and Allison Company.

Funeral services were conducted Monday afternoon at three o'clock, and interment made at Woodland Cemetery.

REDS DEFEAT NEW BURLINGTON TEAM

The Xenia Reds defeated the crack New Burlington team 9 to 8 at New Burlington Sunday by springing an early attack and keeping up the clouting until the fracas was sewed up.

The Reds grabbed off two runs in the first inning and by the end of the sixth stanza were holding a lead of 8 to 2. With the contest safely pocketed, the locals let down in the final frames, during which time the home town athletes crowded up with one run of tying the count.

The game was featured by the playing of Chance and Blackburn for the Reds and the pitching of Kerr and the fielding of Blair for New Burlington. The lineups: Reds—Wones 1b, Green 2b, Leach c, Marlatt ss, Chance ct, Botorff 3b, Rockfield rf, Snell lf, Blackburn p, Stevens p. Burlington—Ary 1b, Moon cf, S. Holand 3b, Blair lf, K. Holland rf, Harvey 2b, Webster ss, Jordan c, Kerr p. The score: Reds—2 1 2 2 0 0 1 0 1—9 Burlington—0 1 0 0 0 3 4 0 0—8

The Reds will play the Wilmington colored team at Reserve Park next Sunday afternoon and would like to hear from some other fast teams for games.

POSTPONE FISH AND GAME ASSOCIATION MEETING

Because the Fourth of July comes on the regular meeting night of the Greene County Fish and Game Protective Association Tuesday, the meeting will be held Monday night at 7:30 o'clock at the Chamber of Commerce instead.

Officers of the Association are urging a good attendance at this meeting because of the important subjects to be taken up, including plans for the annual Sportsmen's Picnic, to be held again this year.

AUTO DRIVEN OFF PIKE; MAN FOUND UNCONSCIOUS

Dayton police were notified at 8 o'clock, Saturday night, that a man had driven his automobile off the Wilmington pike, near Beavertown.

The man was found unconscious by a passing motorist, who took him to Beavertown, for medical treatment. Dayton police were unable to get any information as to the man's identity or to the extent of his injuries.

XENIA REDS TO MEET

The Xenia Reds will hold a special meeting at the home of Jess Chambliss Wednesday evening at seven o'clock, and all players that expect to get in Sunday's game, are expected to be present.

The Reds will be at home next Sunday when they play the colored baseball team from Wilmington at Reserve Park. Earlier in the season, the Reds lost to this team at Wilmington 16-4 in a hard-hitting game, and the locals are now anxious for revenge.

Teams wanting games write to Manager Jess Chambliss.

FATHER AND SON DIE WHILE SWIMMING IN POND

Georgetown, Ky., July 3.—Ernest Williams, 35 years old, of Newtown this county and his seven-year-old son, Albert Lee Williams, drowned Saturday night when bathing in a pond on the Williams farm.

No cry from Williams or his son was heard by neighbors near the pool.

Both bodies were recovered.

PESKY BED-BUGS

(Pesky Devils Quietus) P. D. Q. is the new chemical that puts the everlasting to the Pesky bedbugs, roaches, fleas, ants and cooies—impossible for the pesky devils to exist where P. D. Q. is used.

Recommendations of Hotels, Hospitals, Railroads, Garment Factories, etc., are a guarantee to the public that the safest, quickest and most economical way of ridding the pesky insects is by the use of P. D. Q., as this chemical kills the pesky devils as the live ones, and will not injure the clothing.

A 35¢ package makes a full quart, enough to kill a million bedbugs, roaches, fleas or cooies—and also contains a patent spot to get the eggs out of the hard-to-get-at-places and saves juice.

P. D. Q. can be had in small bottles, double strength, liquid form.

Efficient Housekeeping

BY Laura A. Kirkman

KEEPING CHEERFUL IS THE new song; you may find it in going to the movies; while our neighbors may find it in Oh, dozens of different ways—in watching a pretty doll grow under a crocheted hook—in reading a new novel—in writing a long, newsworthy letter to a dear friend. These bright spots of pleasure in our day make a goal for us to work toward; and we work more eagerly and happily because they are ahead.

Let us not be ashamed of having a normal interest in something outside of our housekeeping. Let us instead, be thankful that we have that interest to keep us happy and cheerful and, thereby, healthy.

To be sure, there will always be plenty of folk who have inherited the ancestors' sternness and who will not mind informing us that they think our favorite pastime frivolous. But, then, with such critics, criticism has become a habit—and they would still disapprove of us if we became perfect, wouldn't they?

And, in striving to keep well, a happy heart is our greatest aid. Any doctor will tell you this. If we are unhappy, if we are worried, if we are longing for something we cannot have—these leader emotions keep us from properly digesting our food and getting enough sleep.

So, the woman who is really ambitious to be a good housekeeper will first of all try to keep happy and cheerful. She will pick up a little joy along her daily path and thereby make herself more fit to do her housekeeping tasks. Hard work must be balanced by diversion of some sort.

Not long ago I looked at the daguerreotypes of some dear folk who lived long ago—but they were such stern-looking folk! The lips in the pictures were grimly set in a straight line; the facial expressions were forbidding almost to a point of disapproval! Of course the poor photography of those early days might have been responsible for part of this Spartan effect, but as I turned away from the little tin pictures I was so glad I lived in this age instead of then! For, today the smile and the song and the optimistic out look are universal ideals, rather than a joy-killing seriousness which amounted almost to martyrdom in our ancestors' time.

"You bet it won't! Oh, Gladys, perhaps she will help me. I heard a traveling man at Miss Carter's say once: 'What ain't worth asking for ain't worth having.'

"You heard a lot at Miss Carter's, didn't you?" Cora broke in.

"A sight more'n they thought I did. Mostly it wasn't any good for me to hear—nor for any young girl. But it warned me a lot, just like I told you, Cora. I've been studying with you now for three months. I know I could do the work if I could get it, Gladys. You won't forget to ask that woman will you?"

"No, dear, I'll see her at lunch time tomorrow."
